Ladies' and Girls' Ready-to-Wear Garments.

What is Generally Accepted As Correct

Gray, in all its shades, has by universal acceptance been proclaimed the king of colors for Autumn 1905. The most reliable fashion delineators hinted some time ago that this would be the case, so we took the hint and turned our thoughts and endeavors toward bringing together a contrasting assortment of correctly and stylishly modeled suits in all the various shades of gray.

Every true woman's aim is to be stylishly dressed, and no woman can be considered stylishly dressed unless she is correctly dressed. In getting a suit here you are assured of the latter; therefore, further argument would be superfluous—our stock of suits being at once correct, stylish, and in every way first-class.

One graceful long coated model at \$25.00 is composed of best quality homespun cloth in a stone gray shade. A model forming an ideal "all occasion" suit being serviceable, yet essentially dressy. Other long coated styles are made of novelty materials, cut upon mannish lines, and carry unique individuality with them, which make them distinct from all others.

Declined to get off the Bench.

The following was sent from Winchester on Sept. 26:

When the contempt case against James Hargis was called at Winchester the Commonwealth answered ready. Judge Hargis filed an affidavit which, with Judge Benton's remarks, is sensational. He alleges that he believes Judge Benton who will try the case is his bitter enemy since a business transaction five years ago and extending into politics; that he believes Benton wishes to get rid of him as a politician, and that they do not speak; that the proceedings were instituted against him by personal and political enemies, and that they are circulated in Breathitt county, where he is a candidate for reelection for County Judge; that Benton will force the trial at this time in order to injure him; that Sheriff McCord is also his enemy and is now keeping and training

Mose Feltner to testify against him; that he believes Judge Benton is disappointed on the small verdict found against defendant in the Marcus damage suit, and is pushing the present case in hope of nullifying him of the damages he failed to get before. On these counts he says he cannot have a fair trial before Benton and asks him to vacate the bench.

Judge Benton declined, and said as to Judge Hargis and himself not speaking that before Judge Hargis filed a similar affidavit in the Marcus damage suit they had always spoken; that the same day they had met on the streets of Winchester and spoken most cordially; that Judge Hargis had ceased to speak for reasons known to himself, and if he should vacate it would set the precedent that if a litigant desired a Judge to leave the bench he should simply stop

speaking; that the court cannot be responsible for political lies circulated in Breathitt county; as for the other allegations, if the statement had been made that they were true, and not simply based upon the belief of Hargis without stating any foundation for the belief, he would not hesitate to vacate; that he might have said in a political meeting that Judge Hargis, being a State Central Committee man, was a disgrace to the Democratic party, but he did not remember it.

Life is Embittered.

Life is too often embittered by the grievous pains and suffering caused by dyspepsia, in one or the other of its many forms. No other disease covers such a wide range of symptoms, or causes such varied suffering, to its victims. Stomachache, headache, dizziness, nausea, biliousness, constipation, fever, etc.,—all are due to this one dreadful disease. No wonder that thousands are so enthusiastic over the cure of their disease by Dr. Caldwell's (laxative) Syrup Pepsin. It is a most marvelous, potent, and universal cure. Try it. Sold by W. S. Lloyd at 50c and \$1.00. Money back if it fails. 12-47.

Cultivation of peach orchards

especially should cause in August on account of causing too late a growth of wood, which may be injured during the winter. In many cases the peach may be benefited by a mulch of cool ashes.

Family Skeleton.

Many a person's family skeleton is a state of weak digestive organs inherited from careless ancestors. The skeleton can be laid to rest by Dr. Caldwell's (laxative) Syrup Pepsin. Better do so at once, otherwise it will dog you daily, and keep you in constant misery, and in danger from worse complications. Syrup Pepsin is a specific for indigestion, constipation, headache and biliousness. Try it. Sold by W. S. Lloyd at 50c and \$1.00. Money back if it fails. 12-47.

There is no better season to cut off water sprouts, suckers and small limbs from all kinds of fruit trees. Such is the growth of the tree in August that few new suckers are reproduced, and when once cut off the job is done properly.

Fruit on the farm always holds its selling value, even if the trees are not old enough to produce. The promise of fruit is there, and the buyer will always take it into account. Even if you don't want to sell, the fruit will be of value to yours!

THE LIQUOR TRAFFIC.

The Grand Lodge J. O. O. F. to Bar the Dealers.

The chief interest in the session of the Sovereign Grand Lodge of Odd Fellows held in Philadelphia on September 20th centered about the question of the liquor traffic as being a bar to membership in the organization. The report which was read by Representative Goudy and later approved by the body in session decides in brief that no one can remain a member of a lodge who is engaged in the liquor business in any way unless he was a member and so engaged and has been continuously since the first ruling was made at the 1895 convention at Atlantic City. The test case which aroused the specific question at this time was that of a man, who being engaged in the liquor business, became a member of a lodge. This adopted report decided that "His membership must be recognized until terminated in a manner provided by law." It is the duty of the subordinate lodge to terminate his membership unless the member has since retired in question and thus have removed the constitutional prohibition to shall voluntarily resign his membership.

TWO ROUTES TO CALIFORNIA.

Three Routes to Pacific Northwest Afforded By Rock Island System.

Are you going west this summer on that long deferred vacation? An unusual opportunity is presented that you can't afford to miss. Greatly reduced rates for summer tours to the Pacific Coast—Los Angeles, San Diego, San Francisco, Portland, Tacoma, Seattle. Rock Island is the way to go. Via New Mexico, Colorado, Wyoming or the Northern route. Full details and illustrated literature from John Sebastian, Passenger Traffic Manager, Rock Island System, Chicago.

An orchard will not thrive in flat, wet soil. In a majority of cases under-draining will put the soil in a good condition and cause the trees to thrive. The drains should run between each row, and should be put down at least below all danger of frost.

Clover grown in orchards and plowed under is about as good and cheap a method of manuring the trees as can be conveniently used.

Made A Hit.

When Dr. W. B. Caldwell, the sage of Monticello, first prescribed his great remedy for indigestion, constipation and biliousness, now known as Dr. Caldwell's (laxative) Syrup Pepsin, its success was so great that it made an instant hit. Since then it has been used all over the world and has never failed to duplicate its first successes. Try it. Sold by W. S. Lloyd at 50c and \$1.00. Your money back if it fails. 12-47.

Russell Sage, multi millionaire and prince of the order of tightwads has just ordered \$48 worth of Bour whiskey from a L'uville dealer. Russell evidently intends to get tighter—Glasgow Times

Mystery Deepens.

Mystery deepens as to why so many millions persist in suffering from such fearful afflictions as dyspepsia, constipation, etc., when they could so easily get rid of every one of their troubles by a dose of Dr. Caldwell's (laxative) Syrup Pepsin. Have you tried it? If not, do so today. Sold by W. S. Lloyd at 50c and \$1.00. Money back if it fails. 12-47.

Perhaps when Mr. Roosevelt appointed a business associate of Mr. Morgan to his official household he had an eye to the national debt and wanted some experienced advice as to how to underwrite the debt. Mr. Roosevelt has a good eye at all times to the windward it is clear.—Paducah Register.

BENEFIT TO MANKIND.

One of the Greatest Discoveries of the Nineteenth Century.

There is nothing in the way of a discovery in the nineteenth century that has proved of greater benefit to mankind than that of two eminent French chemists, Morques and Gautier by name, who discovered a way to separate the medicinal curative elements, of which there are about fifty different kinds in the cod's liver from the oil, and give to modern medicine all the tonic, body-building and curative properties that that grand old remedy cod liver oil, unencumbered by the oily grease part, which science had proved of no value whatever, either as a food or medicine. Thus they produced Vinol.

Vinol is guaranteed to contain in a highly concentrated form all the medicinal elements of cod liver oil, actually taken from fresh cod's livers, and wherever oil fashioned and liver oil or emulsions will do good, Vinol will do far more good—for being without oil it is delicious to the taste, easily assimilated and won't upset the weakest stomach.

Vinol tones up the digestive organs, creates a hearty appetite, makes rich, red blood and creates strength for old people, weak women, puny children and after sickness, and for all pulmonary troubles it has no equal.

So strong is our faith in Vinol that we freely offer to return money in every case where it fails to give satisfaction. Wm. S. Lloyd, Drug-gist.

SHAKE IT OFF.

Rid Yourself of Unnecessary Burdens.

Don't bear unnecessary burdens. Burdens of a bad back are unnecessary.

Get rid of them. Doan's Kidney Pills cure bad backs; Cure lame, weak and aching backs; Cure every form of kidney trouble. Lots of endorsement to prove this.

D. D. Connor, proprietor of Fordham Hotel, of Main St., Paris, Ky., says: "Off and on for several years I was troubled with kidney complaint. The pains across the small of my back were at times sharp and piercing, causing me considerable suffering. I did some doctoring but was not helped. A friend brought me a box of Doan's Kidney Pills and I was much gratified with the good results. I obtained from their use such great and needed relief that I endorse the claims made for Doan's Kidney Pills and believe they have no equal as a kidney remedy."

Plenty more proof like this from Mt. Sterling people. Call at F. C. Duerson's drug store and ask what his customers report.

For sale by all dealers Price 50 cents. Foster-Milburn Co., Buffalo, New York, sole agents for the United States.

Remember the name—Doan's—and take no other. 12-27.

Travelers' Rest.

Few persons who know the historical associations which cluster about "Traveler's Rest," the old homestead of Isaac Shelby, Kentucky's first Governor, will learn of its destruction by fire several days ago without feelings of painful regret. To the generations of more than a century ago it was known as true to its name for its hospitality, where, in the later, as in the early days of the State, the latest stranger was always out and the weary traveler found a genuine Kentucky welcome. It was situated in Lincoln county, on the main thoroughfare passing southward from Danville, one of the first trails of the pioneer penetrating the typical bluegrass region. Its historic association it was one of the most interesting spots, having to do with the first settlement and pre-emption granted in Kentucky by Virginia. The grant was made to Isaac Shelby in 1782, and shortly afterward he settled there, having married at Bonesboro, Susanna Hart, the second daughter of Nathaniel Hart, one of the proprietors who had organized the Transylvania settlement in 1775. From the first the name of Traveler's Rest was given to his home, and here he resided until his death in 1820, but still remains in the family, being the property of a great grandson, and namesake. At the time of his death he was the only individual in the State residing on an original settlement and pre-emption, and there is no other instance in Kentucky of such a continuous ownership of property by the same family.

Monarch over pain. Burns, cuts, sprains, stings. Instant relief. Dr. Thomas' Electric Balm. At any drug store.

The Baptist church at Middlesboro, at their regular monthly business meeting dropped the names of forty-two of their members from their church roll for non support, non attendance and a general lack of interest in the church affairs.

Laws should be so framed and executed as to make it easy for people to do right, and hard to do wrong.

ANNOUNCEMENTS.

We are authorized to announce JAMES L. ROBERTSON as a candidate for Auditor of Montgomery County, subject to the action of the Republican party.

AT IT.

It is the imperative duty of the Democratic candidates to get up an enunciation and set that every Democratic voter gets an opportunity to vote.

DEMOCRATIC GAINS.

In this issue will be found the official registration, showing a handsome Democratic majority in the city of Mt. Sterling. The Democrats are all united and it now seems to be only a question of majority. Let every Democrat put his shoulder to the wheel and roll up the biggest majority Montgomery county has ever known. We can do it by the proper effort. Don't become too sanguine. Keep up the good work until the last hour and victory is a certainty. The following is the official registration:

	Dem	Rep	Ind
1st Ward	68	20	13
2nd Ward	204	68	5
3rd Ward	26	212	6
4th Ward	91	26	6

REPORT AND RECOMMENDATION

Of the Grand Jury of This County.

The Grand Jury finally adjourned Friday after making the following report to the Court:

"The Grand Jury respectfully reports that it has been in session eleven days and has reported 35 indictments for various crimes and offenses. We have examined the reports of the officers made to your Court and find same correct so far as we are able to tell. We visited the county jail and find it in good condition and well kept. We visited and examined the County and Circuit Clerk's offices and deem them unsafe, and recommend that the vault in both of them be made burglar proof as far as possible; and further recommend that the combination locks on the vault door in the Circuit Clerk's office be used at night. Having examined a number of witnesses in regard to the stolen indictments from the Circuit Clerk's office, we have been unable to get any evidence whatever.

"We recommend that the Fiscal Court and Road Supervisor be required to make an official report of the financial condition of county and pike appropriations each fiscal year and publish same in one county paper.

What paper, any? There are four papers published in the county—two Democratic, two Republican, one of which is known as the colored paper. Which would the Jury have it in, one of the largest circulation, or in one paper? Ed.

"We further suggest after due inquiry from a number of our best citizens, that it is a wish of the people of this county that contracts for all turnpike work be let by sealed bids.

"We have examined the report recently published in the county papers, and have been unable to agree on the actions of some of the county officials.

This paragraph is an indefinite fling and as meaningless as indefinite. That report shows that the county got full value for every dollar expended and should be satisfactory to the taxpayers, and doubtless is. Ed.

"We desire also to express our thanks to the sheriff, jailer, atorneys and county clerk for their willingness and promptness in assisting us during our sitting."

We would also state for the benefit of the public that the combination locks on the vault of the Circuit Clerk's office are being used and that no kick is due from that source. Ed.

CLARK COUNTY.

Dr. W. A. Bush has received a letter which states that a man was shot and killed at Devore, W. Va., on September 5th, and that before his death he stated that he lived in this city and that he had a wife and three children living here. His name is said to have been James Roberts, but no one seems to know him.

The Court of Appeals affirmed the decision of the Clark Circuit Court in the case of James Williams,

indicted for allowing a minor to play in his pool room. The Court says that appellee must have known the boy was a minor to have been guilty under the statute, and his knowledge of the fact was not proven.

Wednesday night in our classic Bucktown, Mose Mitchell shot and instantly killed James Halley. Both are negroes and the trouble arose over a crap game. The special grand jury on Thursday returned an indictment against Mitchell for the murder, and his trial was set for Friday.

The Grand Jury returned indictments against Allie Harrison and Ed Oder, of Lexington, for criminal conspiracy in attempting to defraud the county and the state in the matter of back taxes due from the Ford Lumber Co. They were arrested by the officers of Fayette county, and gave one thousand dollars bail.

The corn and alfalfa special was here. Quite a crowd was at the depot. A gentleman from Ohio who had grown alfalfa for a number of years, gave a short and very practical talk and distributed a number of pamphlets. The gen-

tlemen from Iowa, who was to talk about corn, was left without an audience, all desiring to hear about alfalfa.

Killed at Stanford.

At Stanford Tuesday of last week, John Farris was shot and killed by R. Lee Sims. Both were prominent race horse men.

At Lexington, Henry Robinson, colored, on the witness stand, admitted that he set fire to the J. B. Haggins stock barn recently burned. The case against Lee Anderson, the night watchman, also indicted, was then dismissed.

The Annual State Convention met at London, Ky., on Friday evening. Six welcome addresses were made on behalf of the ministry, lawyers, schools and citizens, local union and people of the mountains. Mrs. B. F. Thomson, President of the Mt. Sterling Union, responded to these. Mrs. Robert Armstrong and Miss Mary L. Armstrong are also in attendance. The convention closed last night.

There is a quality in Royal Baking Powder which promotes digestion. This peculiarity of Royal has been noted by physicians, and they accordingly use and recommend it exclusively.

ROYAL BAKING POWDER CO., NEW YORK

Many years ago Mrs. Mary Kirkpatrick, an elegant and highly cultured woman taught music in M. F. C. She still has a number of old friends who will be glad to know she is living and now, in her old age, has a happy home with her only son, who is living at Bandon, on Puget Sound, not far from Seattle, Washington.

The rose of summer will last but a short time longer, and the watermelon will soon go dry, but with the passing of these very enjoyable times we also lose some of life's aggravations—the flies, the cockroaches, the mosquito, the base ball rooster and much excessive perspiration—Springfield Sun.

SUN'S EFFECT ON MAN BAD

Its Light Not Necessary, States an Eminent Scientist of England.

Dr. Charles E. Woodruff has made an exceedingly interesting investigation of the effects of tropical light on white men. The origin of his investigation was an attempt to prove or disprove the theory that the skin pigmentation of man served to exclude the short or actinic rays of light whose action is to destroy living protoplasm.

If this theory is true, says the Chicago Tribune, it will explain at once many anthropological riddles. We find in it a reason why white men, while capital colonizers in cold or temperate regions and sanguine administrators of tropical colonies, have failed when they attempted themselves to colonize in hot countries; why blonde types prevail in the cloudy, almost sunless regions of the north of Europe; why the type of man living in the treeless city is less blonde than that of the countryman who has during a large portion of his outdoor life the protection of woodland and other shades.

Woodruff soon felt bound to admit that the sun is not the beneficent deity we thought him to be as we worshiped, but that he delights in sacrifices and slays ruthlessly those who trust him.

It is to be noted, however, that man does not need light, and it is almost a shock to be made to realize that the vast majority of land animals live in absolute darkness.

Woodruff leaves little reason to doubt his statements, for besides the recognition of his reasoning from universally accepted facts, he fairly bristles with authorities whom he cites in support of his position.

HER FLATTERING ESTIMATE

It Was Not Intended for Her Friend's Percussion, But It Was Laid Bare.

"Kate!" cried a distressed-looking woman, rushing up to a girl friend on the hotel piazza, relates the New York Press, "don't leave a word about it, but I've lost that wretched little diary, dropped it somewhere. And the plaguey thing contains my dearest secrets. I wrote your name in it. What do you think of that?"

"There it is in black and white that Beatrice drew her hair and looks like a fright, that Helen is turning green with jealousy, that Howard hasn't the courage to propose when he has the chance, and that Jack is just too lovely for anything."

"Why don't you post a notice and offer a reward?"

"Indeed I won't. I never want to see the thing again. If anyone returns it I shall declare it a forgery from beginning to end. I'll never own the loveliest day I live."

"What did you say about me, Maud?"

"Oh, I don't quite remember, but something pleasant; you can depend upon that."

"Let me help your memory a little. You wrote that I am the most inquisitive little mixt you've ever known, and that I think it my special business to look after other people's affairs. Here's your diary. You left it on that chair."

WOMAN KILLS BIG GAME.

Lion, Lynx and Two Wild Cats One Night's Record in the San Bernardino Mountains.

San Bernardino, Cal.—A big lynx, a lion and two wild cats are the trophies which Mrs. A. R. Wright of this city displays as the result of one night's hunt for big game.

Mrs. Wright, with her husband and Mr. and Mrs. J. R. Wallace, has been camping at Table Mountain, in an unfrequented section of the San Bernardino range. When the women were about on a fishing trip, Mrs. Wright decided that she would take a shot at some wild animals, and with a rifle she took up a position at sundown in the branches of a tree some yards from the camp, her position commanding a view of part of a trail to a new-by spring.

The moon had just passed out of an eclipse when she caught sight of the form of an animal sneaking away. With a snarl she stretched the creature out with one shot. Not caring to leave her safe perch, she waited, expecting her husband soon to pass on the way to the camp. Half an hour later she took two shots at a lion and before assistance came had fired twice at other creatures. When daylight came it was found that she had bagged the animals named above.

GIRL WALKS AFTER YEARS.

Recovery Is Attributed to Prayers of Friends—Case Pronounced Hopeless.

Yorba, Pa.—Ethel Vandenberg, daughter of Edward P. and Mary M. Vandenberg, of this city, and 12 years an invalid unable to walk, said to her father: "Papa, I want to get up and walk."

Then she straightened up on her couch, raised her feet, and proceeded to walk across the floor.

She fell twice going from her bed to the top of the stairs. The greatest part of the distance to the dining room she walked alone and unaided. She had not walked before in 12 years. For six years she has not been out of doors.

Physicians had pronounced her case hopeless. The father spent thousands of dollars for specialists, but these agreed that she could not get well. Mr. Vandenberg says he knows of no other reason for the sudden recovery than the prayer of his friends.

NO POCKET IS SACRED.

Magistrate Rules Wives Have Right of Entry and Search—Case in Gotham Court.

New York.—Wives of the search their husbands' pockets from indignation. Magistrate Furing of the Lee avenue police court, Williamsburg, Richard Walsh, charged with abandonment, has been employed at the Parkway hotel, Coney Island. Mrs. Walsh found in his pocket a letter that began "Dear little sister," and ended "Your loving brother, Dick." According to Mrs. Walsh, "Dear little sister" is a mysterious woman whom she knows only as "Susanne."

"It was a confidential matter," said Walsh, "and my wife had no business to take it and read it."

"Oh, yes, she had," said the magistrate. "Wives may examine their husbands' pockets. It is one of their prerogatives. This letter appears to me to have been altogether too confidential." The case was adjourned.

Discriminated Against.

The eastern woman who was making a collection of husbands and was stopped in her career when she had accumulated only eight or ten will have reason to think in the light of recent events, that she has been discriminated against most unjustly.

GETS OLD INDIAN RELIC.

Wooden Bowl Over Century Old Sent to Indiana Museum—Has Long History.

Lafayette, Ind.—A wooden bowl made from an immense oak knot 500 Indian square over a century ago has been added to the Indian museum of relics at Lookout Lodge, Judge R. P. De Hart's country home near Tecumseh trail. Alva O. Reser, secretary of the Tippecanoe Battlefield Memorial association, is custodian of the relic and has loaned it to Judge De Hart.

The bowl has a history that dates back before the year of 1812. Capt. Benjamin Parke, after whom Parke county was named, led a company of American soldiers in the battle of Tippecanoe. After the battle Capt. Parke and a number of fellow officers visited Prophetstown, on the Wabash river. Capt. Parke found the bowl at the village, which had been hastily deserted, and carrying it back to Vincennes presented it to Mrs. LaFayette, who kept a boarding house at that time.

The bowl became an heirloom in the LaFayette family. Charles LaFayette, who is 50 years old, resides in Cass county, and since he was a child remembers that wooden bowl. Eighty years ago he heard the story of the discovery and the incidents that surrounded it. Mr. LaFayette heard of the Indian museum being started by Col. De Hart, and he gave the bowl to the Tippecanoe Battlefield association.

It is understood the bowl and other Indian relics will form the nucleus of an immense museum of Indian relics to be established on the Tippecanoe battlefield.

GIVES FORTUNE: WEDS AT 80

Otogenerian Provides Homes for Children, Then Proposes to Widow Who Accepts.

Allentown.—Squire George Applegate, said to be the wealthiest man in Bethlehem, 80 years old, came to the Allentown courthouses and obtained a license to marry Mrs. Augusta Wahl, 60 years old, of the same place.

When he received the license he remarked that he had not Mrs. Wahl's full consent to the wedding, but he guessed when he showed her the license she would realize he had not proposed in fun, but meant business.

Squire Applegate, when he pocketed his license, remarked further that he had already given each of his five children \$30,000. In view of this he thought they could not object to his proposed marriage.

He drew from his pocket a huge package of deeds. On his wedding day, he said, he would give each of his children a deed for their home, and added: "And I'll have plenty for myself and wife."

A tree in poor ground can't bear, because it requires all the strength it can extract from the soil to sustain its life, and it is the same way with trees which have too much head—all their strength is required to support the head and the vast foliage which it bears.

Do You Believe in Signs?

A mark, note, token or symptom is a sign that we may know in advance if it is good or evil that is to happen us. Accidents have happened to their signs, every disease has its symptoms. The sign is to heed the happen and counteract the effect of the latter. Sick-heads, indigestion, stomach disorders, biliousness and dyspepsia are signs of sickness. People that believe in these signs get a speedy cure by the use of Dr. Gunn's Improved Liver Pills. Sold by druggists for 50c per box. One for a dose.

GREAT POWER OF THE "AD"

Business Men Tell of Early Ventures Which Were Assured of Success by Publicity.

When the business men get together it is impossible for them to avoid for long the subject of advertising and on this absorbing topic many old stories are told.

Some New York business men were talking at a luncheon.

"I once advertised," said a contractor, "for a donkey engine. I got the very thing I wanted at a low price, and when I opened the boiler I found it filled to the brim with smuggled Havana cigars and Jamaica rum. I sold the odd cargo for \$125."

"I said John Marks, a man in white linen, 'own as you know, Marks' medicine mill, the only factory of its kind in the world. Our daily output is 2,500,000 pills, 125,000 plasters and 50,000 bottles of painkiller. How did this mammoth business start? It started with a dollar's ad.' I was 28 at the time, and I was keeping books at a retail furniture emporium at \$7 a week, hours from eight till six. Pretty near sick I was; I had thoughts of suicide; slaving mind, ten hours a day, and only \$7 to take home to the wife and children on Saturday night."

Then came the real labor, for though made once, it was not easy to reproduce an accident, and it took nine months of daily work before I had again managed to duplicate the ancient wonder."

Mr. Marks has ceased gathering and now makes his living as a living, for he has all the artist's objective in making money by his work. He charges barely enough to cover the cost of his labor, and lives laborious days, where a less squeamish man might have luxury and the plaudits of thousands.

WINS SWEETHEART BY RUSE

Robert Davis, 23, Blind Bars—Daughter Sees Man of Choice—Father Is Liberated.

St. Paul, Minn.—A story of how "love will find a way" has developed in the probate court. William L. Wallace, of this city, was arraigned to be examined as to his sanity. The physicians said he was perfectly sane and then the story came out.

The old man was arrested on complaint of his daughter. A young man called, Miss Virginia Wallace, at her home. The father answered the knock and promptly ejected the young man. The young woman then went to the door and while the father was walking up and down the sidewalk in front of the house the daughter is alleged to have let the young gallant into the house through a rear window.

The father discovered this and tried to get back into the house. He gave vent to some strong language and pounded on the door, when the daughter telephoned to the Margaret street police station, saying her home was besieged by a crazy man. When the police arrived they found the irate parent storming about and promptly took him away without knowing who he was.

Worthless and decaying trees in the orchards are only harbors and breeding places for the insects which prey upon the fruit trees and their fruit, and it is evidently a wise thing to grub out all such trees and brush them up if the most sound and healthy fruit is expected.

Roumania's Illiteracy.

Roumania appears to be the most illiterate country in Europe. The last census shows that in the population of about 6,000,000 nearly 4,000,000 can neither read nor write and that only a little over 1,000,000 have any education at all.

An Insultation.

"Do you believe the man is made of dust, Mr. Haskerly?" asked the frivolous baronet.

"Not all of them, Mr. Slowly," replied the landlady. "Dust settles promptly."—Chicago Daily News.

REVIVES LOST ART.

POTTERY-MAKING, 2,000 YEARS AGO, BROUGHT TO LIGHT.

Harry Firth, an Englishman, duplicates the Celebrated Blackware of the Etruscans—Hitts on Scheme by Roundabout Route.

London.—Examples of an art lost more than 2,000 years and only recently revived, have been exhibited by Harry Firth, of Kirby Lonsdale, England. The work duplicates the famous blackware of the Etruscans.

Mr. Firth spent the first 40 years of his life tending flowers for the squire of Kirby Lonsdale. He was a common student ranker in the neighborhood of six dollars a week. In 1880 he became interested in wood carving, through the instrumentality of which he was introduced to pottery.

Presbyterians Denounce Herrick

The most radical resolutions ever
presented against Governor Herrick
were, adopted by the Lincoln
Presbytery, in session at Gomec
Ohio. Further, a committee was
named to present the same resolu-
tions to the State Presbytery
which meets in Zanesville next
month. The resolutions read:

"Owing to Governor Herrick's
attitude toward the Brannock bill
and to the fact that he is but a
creature of Boss Cox, of Cincinnati,
every one is advised, for the
sake of righteousness, to vote for
John M. Patton, for Governor,
not because he is a Democrat and
antagonist Herrick, but because
he stands for righteousness and
right and the other does not."

It will be seen from the above that
Gov. Herrick is opposed not be-
cause he is a Republican, but be-
cause he is regarded as an ally of
the whiskey men. Other reports
indicate that the people of Ohio
are demanding that their candi-
dates for Governor stand for in-
forcement of laws bearing on tem-
perance.

**Large Shipment From Kentucky
of Whiskey.**

Kentucky's shipments of whiskey
to the Pacific coast for export are
enormous. The entire trade of
Indiana, China, Japan, the Philip-
pines Islands, portions of Africa
and other eastern countries, is sup-
plied through Pacific ports. An
reduction in freight rates upon
this trade, and not only result in a
reduction of both the wholesale and
retail prices, but will increase the
trade which is just obtaining a
foothold in that territory.

At present almost one-third of
Kentucky's product is shipped
to the Pacific coast. Only about one-
half of this is exported, as all the
Western States, including Alaska,
Canada, Mexico and portions of
South America, are supplied from
distributing points on the coast.

The Luxury of Living.

You will never know until you have an abundant supply of water in your home. When you consider that we do the pumping all the year round, and that your water supply is always under pressure, there is

Nothing So Cheap

In all your living expenses as the water supply from our mains. You may have water for sprinkling the street and lawn, a faucet in the kitchen, another in your stable, and the charge is

Only \$12 Per Year

FOR 30,000 GALLONS. With the bath-room connected the cost is \$16 and the allowance 40,000 gallons. The first cost of installing the water is about the same as building a new cistern. Come in and talk about it anyway, or see your plumber.

GOLD FIELD INEXHAUSTIBLE

Geologist Tells of Mines Where Boundless Treasure Defies Inroads of Man.

Ask the geologist if the treasure of the hills is being exhausted, and he will tell you that in spite of the eager quest for wealth which has prevailed since the California discovery, there are still regions which are but little known to the prospector, says the Pilgrim. While in some starvation or death from thirst awaits the adventurer who dares to penetrate there without sufficient food and water, there are others which are comparatively accessible and which may yield as great riches as any of the famous bonanzas yet struck. Only recently one of the most famous gold fields was entered for the first time by a prospector. Not until 1900 was Tonopah discovered, yet to-day it is known throughout the world, and the mountainside and valley are pierced with over 100 openings from each of which are daily being taken car loads of gold and silver ore. In May, 1903, a young lawyer named Butler, living in the town of Belmont, took it into his head to go on a prospecting expedition among the mountains to the south of his home. He knew little or nothing about geology or mining, but he had heard Indians tell stories about traces of gold they had seen near a spring known as Tonopah. Packing an outfit on the back of half a dozen burros and with one companion, he started out, reaching the spring after a journey of about 24 hours. He soon found what the miner calls outcroppings—quartz rock nearly black in color, and specked with yellow. Butler seriously questioned its value, but decided to knock off some samples, which were taken back to Belmont and assayed, it being found that every ton of ore similar to the sample might contain from \$80 to \$100 worth of gold or silver. This was enough for the prospector, who again packed up, but this time decided to take his wife along in the belief that the presence of a woman might give him better luck. Staking out several claims among the rocks he asked his wife to name the first one. This she did, calling it Mizpah. It was among the first to be opened, and from that day to this Mizpah has been the richest mine located in the Tonopah field.

INDIAN'S POISE IS SURE.

He Walks Flatfooted with Great Economy of Force—Woodman Rolis.

A woodman walks with a rolling motion, his hips swaying an inch or more to the stepping side and his pace is correspondingly long. This hip action may be noticed to an exaggerated degree in the stride of a professional pedestrian, but the latter walks with a heel and toe step, whereas an Indian's or sailor's step is more nearly flat footed. In the latter case the center of gravity is covered by the whole foot.

The poise is the secret of the sureness of the foot, and the smaller toes, all do their share of work and assist in balancing. Walking in the woods in this manner one is not likely either to trip over projecting roots, stones and other traps as he would if the feet formed hooks pointing outward. The advantage is obvious in snowshoeing. If the Indian were turned to stone while in the act of stepping the statue would probably stand balanced on one foot.

This gait gives the limbs great control over his movements. He is always poised. If a stick cracks under him it is because of his weight, and not by reason of the impact. He goes silently on and with great economy of force. His steady balance enables him to put his moving foot down as gently as you would lay an egg on the table.

Privates Mistrusted. Recruiting in the British military corps is at a standstill, because the privates in the corps, although socially just as good as the officers, are treated as inferiors while in uniform. For example, they frequently find themselves debarr'd from joining the officers at mess, during the "staff rides," simply for that reason.
